

## FREE HEALTH LECTURE

# Latest Treatments for Common Gynecologic Problems

### ALSO, LEARN ABOUT NEW “BELLY BUTTON” HYSTERECTOMY

Women coping with painful or heavy periods, fibroids, endometriosis or prolapse can live a life consumed by doctor visits and agonizing symptoms. Luckily, new and effective treatments are available.

Come hear a board-certified urogynecologist describe the latest non-surgical and minimally invasive surgical innovations for treating common gynecologic problems. Then learn about single-site robotic-assisted hysterectomy—a new procedure done through a single incision in the belly button, making the surgery virtually scarless.

**Speaker** Brian S. Nelson, MD, FACOG, of Colorado Gyn Robotics

**When** Thursday, Nov. 13, from 7 to 8 p.m.

**Where** YMCA of Boulder Valley, 2800 Dagny Way, Lafayette
