# Latest Treatments for Gynecologic Problems

Women coping with painful or heavy periods, fibroids or endometriosis can live a life consumed by doctor visits and agonizing symptoms. Luckily, new and effective treatments are available.

Come hear about the latest non-surgical treatments for common gynecologic problems. Then learn about minimally invasive surgical innovations, including a new hysterectomy procedure done through a tiny incision in the belly button.

**Speaker** Sarah Williams, MD, of Boulder Women's Care  
**When** Thursday, October 29, from 7 to 8 p.m.  
**Where** Foothills Hospital, 4747 Arapahoe Ave, Boulder  
(Leo Hill conference room)

**Reservations required:**
